

Incoming STATISTICS 12<sup>th</sup> Graders:

Please read all of the resources provided and do as many of the problems as you can.

Note:

- 1) There are vocabulary words that are defined, and you need to know them to do most of the problems (which have answers).
- 2) The "z-table" will be used to analyze problems related to the "normal" distribution and is given along with other tables and equations to be used on the AP Stats Exam.
- 3) A graphing calculator is recommended (TI- 84 or equivalent will do).
