

Science Academy Summer Learning

As part of your on-going summer learning, it would be a good idea to subscribe to one of the following magazines:

Air and Space
National Geographic
Popular Science/Popular Mechanics
Scientific American
Time

Smithsonian
Discover
Natural History
Mental Floss
The Week

With these magazines you should...

- Read articles to keep up with new trends in the field of Science.
- Practice writing your own one-paragraph summaries of articles, identifying *Who, What, Where, When, Why and How*.
- Create an outline of the main points of the article.
- Identify key vocabulary and familiarize yourself with unknown words.

Assignment:

To help practice taking lecture notes, it would be helpful to watch any Science-Related television program on the ***Science, History, Learning, Discovery*** or ***National Geographic Channels***, etc... and do the following:

- Sit with paper and pen as you watch the show.
- Write down key words or phrases as you watch. After the show, go back and research/define any terms you were unfamiliar with.
- Write your own one-paragraph summaries of program, identifying *Who, What, Where, When, Why and How*.
- Create an outline of the main points of the article.

MUST COMPLETE THREE (3) Summaries and outlines from three (3) different sources.
